Create Storyboards to Represent the User Flow for a Mobile Banking App Using Balsamiq

AIM:

The aim is to create storyboards representing the user flow for a mobile banking app using Balsamiq.

PROCEDURE:

Tool Link:

<https://balsamiq.com/>

Step 1: Define the User Flow

1. Identify Key Screens:

- List the main screens your app will have:
 - Login Screen
 - Dashboard (Account Overview)
 - Transactions Screen
 - Fund Transfer Screen
 - Confirmation Screen
 - Payment Success Screen

2. Map the User Journey:

- Understand the typical user journey through these screens:
 - User logs in → views account details → checks transactions → transfers money → confirms → receives success message
-

Step 2: Create Storyboards Using Balsamiq

1. Install Balsamiq:

- Download and install Balsamiq from the official website.

2. Create a New Project:

- Open Balsamiq and create a new project.

3. Add Wireframe Screens:

- Use the “+” button to add new wireframe screens for each key screen.

4. Design Each Screen:

- Use Balsamiq components to design UI.
- Include elements like buttons, text fields, icons, and cards.

5. Organize the Flow:

- Arrange screens in logical order.
 - Connect screens using arrows to represent user actions.
-

Example Screens for Banking App

1. Login Screen:

- Username/Mobile Number input
- Password/PIN field
- Login button
- Forgot Password option
- Biometric login icon

The image shows a wireframe for a 'Bank App Login' screen. At the top, the title 'Bank App Login' is displayed in a bold, dark blue font. Below the title, there are two input fields. The first is labeled 'Username/Mobile Number' and contains the placeholder text 'Enter username or mobile number'. The second is labeled 'Password' and contains the placeholder text 'Enter your password'. Below these fields is a large, solid blue button with the text 'Login' in white. At the bottom left, there is a link that says 'Forgot Password?'. At the bottom right, there is a blue icon representing a fingerprint or biometric scan.

2. Dashboard Screen:

- Account balance display
- Quick action buttons (Transfer, Pay Bills)
- Recent transactions list
- Navigation menu

3. Transactions Screen:

- Transaction list (date, description, amount)
- Filters and search bar

4. Fund Transfer Screen:

- Beneficiary selection
- Amount input field
- Remarks field
- Transfer button

The image shows a mobile banking interface for a fund transfer. At the top is a blue header with the text "Mobile Banking". Below the header, there is a section titled "Select Recipient" with a dropdown menu showing "Saved Beneficiary 1". Below this is a section titled "Amount" with a text input field containing the placeholder "Enter amount". Below that is a section titled "Remarks (Optional)" with a text input field containing the placeholder "Add a note". At the bottom of the main content area is a blue button labeled "Transfer Now". At the very bottom of the screen is a navigation bar with three items: "m", "Transactions", and "Profile".

5. Confirmation Screen:

- Transaction summary
- Payment method selection
- Confirm button

The image shows a mobile banking interface for a confirmation screen. At the top is a blue header with the text "Confirm Transaction". Below the header, there is a white card with a shadow. Inside the card, there is a table with three rows: "Recipient:" with the value "John Doe", "Amount:" with the value "\$100.00", and "Charges:" with the value "\$0.50". Below the table is a section titled "Select Payment Method" with a dropdown menu showing "UPI". At the bottom of the card is a blue button labeled "Confirm".

6. Payment Success Screen:

- Success message
- Transaction ID
- Date and time
- Download/Share receipt button

Example Output

Login Screen

- Username Field: Allows users to enter login details.
- Password Field: Secure input for password/PIN.
- Login Button: Grants access to the app.

Dashboard Screen

- Balance Display: Shows available account balance.
- Quick Actions: Buttons for fast operations.
- Recent Transactions: Displays latest activities.

Transactions Screen

- Transaction List: Shows detailed history.
- Filters: Helps refine search results.

Fund Transfer Screen

- Beneficiary Selection: Choose recipient.

- Amount Field: Enter transfer amount.
- Transfer Button: Initiate transaction.

Confirmation Screen

- Summary: Displays transaction details.
- Confirm Button: Final verification step.

Payment Success Screen

- Success Message: Confirms transaction completion.
- Transaction Details: Shows ID and timestamp.
- Receipt Option: Download or share receipt.

Conclusion

The storyboard effectively represents the complete user journey of a banking app, ensuring a smooth, secure, and user-friendly experience from login to transaction completion.
