

UID EX 9

Name : Madhumitha P

Reg no : 240701297

AIM:

The aim is to design input forms that validate data, such as email and phone number, and display error messages using HTML/CSS and JavaScript with Validator.js

PROCEDURE:

Step 1:

Setting Up the HTML Form Start by creating an HTML form with input fields for the email and phone number.

```
index.html X
index.html > html
1 <!DOCTYPE html>
2 <html lang="en">
3 <head>
4   <meta charset="UTF-8">
5   <meta name="viewport" content="width=device-width, initial-scale=1.0">
6   <title>Form Validation</title>
7   <link rel="stylesheet" href="style.css">
8 </head>
9
10 <body>
11 <div class="container">
12   <form id="myForm">
13
14     <h2>Form Validation</h2>
15
16     <label>Email:</label>
17     <input type="text" id="email" placeholder="Enter your email">
18     <span id="emailError" class="error"></span>
19
20     <label>Phone Number:</label>
21     <input type="text" id="phone" placeholder="Enter your phone number">
22     <span id="phoneError" class="error"></span>
23
24     <button type="submit">Submit</button>
25
26   </form>
27 </div>
28
29 <!-- Validator.js -->
30 <script src="https://cdnjs.cloudflare.com/ajax/libs/validator/13.6.0/validator.min.js"></script>
31
32 <!-- JS -->
33 <script src="script.js"></script>
34
35 </body>
36 </html>
```

Step 2:

Styling the Form with CSS Next, add some basic styling to make the form look nice.

```
index.html # style.css X
# style.css > .error
1  body {
2    font-family: Arial, sans-serif;
3    background: #f4f4f4;
4    display: flex;
5    justify-content: center;
6    align-items: center;
7    height: 100vh;
8  }
9
10 .container {
11   background: white;
12   padding: 25px;
13   border-radius: 8px;
14   width: 300px;
15   box-shadow: 0 0 10px rgba(0,0,0,0.1);
16 }
17
18 h2 {
19   text-align: center;
20 }
21
22 form {
23   display: flex;
24   flex-direction: column;
25 }
26
27 input {
28   padding: 10px;
29   margin-bottom: 5px;
30   border: 1px solid #ccc;
31   border-radius: 4px;
32 }
33
34 input.success {
35   border-color: green;
36 }
37
38 input.error-border {
39   border-color: red;
40 }
41
42 button {
43   margin-top: 10px;
44   padding: 10px;
45   background: #28a745;
46   color: white;
47   border: none;
48   cursor: pointer;
49   border-radius: 4px;
50 }
51
52 button:hover {
53   background: #218838;
54 }
55
56 .error {
57   color: red;
58   font-size: 0.8em;
59   margin-bottom: 10px;
60 }
```

Step 3:

Adding JavaScript for Validation Finally, add JavaScript to validate the input fields using Validator.js and display error messages

```
JS script.js > addEventListener('submit') callback
1 document.getElementById('myForm').addEventListener('submit', function (e) {
2     e.preventDefault();
3
4     let email = document.getElementById('email');
5     let phone = document.getElementById('phone');
6
7     let emailValue = email.value.trim();
8     let phoneValue = phone.value.trim();
9
10    let emailError = document.getElementById('emailError');
11    let phoneError = document.getElementById('phoneError');
12
13    // Reset
14    emailError.textContent = '';
15    phoneError.textContent = '';
16
17    email.classList.remove("error-border", "success");
18    phone.classList.remove("error-border", "success");
19
20    let isValid = true;
21
22    // Email validation
23    if (!validator.isEmail(emailValue)) {
24        emailError.textContent = "Enter a valid email";
25        email.classList.add("error-border");
26        isValid = false;
27    } else {
28        email.classList.add("success");
29    }
30
31    // Phone validation (India)
32    if (!validator.isMobilePhone(phoneValue, 'en-IN')) {
33        phoneError.textContent = "Enter a valid Indian phone number";
34        phone.classList.add("error-border");
35        isValid = false;
36    } else {
37        phone.classList.add("success");
38    }
39
40    // Final submit
41    if (isValid) {
42        alert("Form Submitted Successfully!");
43        console.log("Email:", emailValue);
44        console.log("Phone:", phoneValue);
45    }
46    });
```

OUTPUT

For valid email and phone no

Form Validation

Email:

madhumitha.p.2024.cse@rajalakshmi

Enter a valid email

Phone Number:

79042608

Enter a valid Indian phone number

Submit
